About Us

Since 1988 NIRMAA TEXTILE is one of the leading Manufacturer and Exporter of Knitted Garments and Woven Home Textiles to the International market headquartered in Karur, the capital city of south India's Textile products.

Our state of the art infrastructure facilities include Knitting, Weaving, Dyeing, Printing, Embroidery, Sticthing and Packing .

With an in-house design studio keeping pace with emerging trends we cater solely to customer specific requirements. We collaborate with our clients to produce fashionable products for our end customers.

Quality is seamlessly ingrained in every inch of our products, making sure they are lined with quality that is truly world class.

An eco-friendly and responsible organization .

Our company is tenacious against child labor, forced labor as well as prejudice of any sort.

Our skilled labor pool with technologically advanced infrastructure and stringent quality control policy take NIRMAA a world class renowned leading company in their business activities.

Jute yarns, Twisted Yarn, Multi Count Yarn, Melange Yarn, Gassed Merscerized Yarn, Slub Yarn, Snow Yarn, Roving Grindle Yarn, Neppy Yarn, Space Dyed Yarn etc.

KNITTING

We are highly capable of manufacturing knitted fabrics with the efficient knitting unit with a volume capacity. The high tech machineries with lycra attachments are used for knitting to produce export quality products.

Types of knits - Jersey, Rib, Airtex, Honeycomb, Fleece, Interlock, Terry Velour etc.,.

WEAVING

Cloth is usually woven on a loom, a device that holds the warp threads in place while filling threads are woven through them. The way the warp and filling threads interlace with each other is called the weave.

Types of Weave - Plain, Checks, Drill, Twill, Dobby, Jacquard, satin, Terry etc.,.

DYEING
PROCESSING
FINISHING

Knitted fabrics, Woven fabrics & Yarns are processed with imported eco friendly dyeing machines that bring life to the most vivid colors. Electronic color measurement and dyeing ensures even colorings. After dyeing Balloon padding is used to remove the moisture. The compacting machine controls the fabric shrinkage, spirality and GSM which gives the fabric a niche sophisticated appeal like none other.

Various types of washing facilities are used to remove hairiness and make the fabrics feel soft, neat and spotless Washes like Bio Wash, Enzyme wash, Silicon wash, Vintage wash, Stonewash, Cold pigment wash, Silicon crinkle effect and more washings are used. To dry the washed fabrics and garments we use tumble dryer, tubular dryer and natural drying facilities.

Also we do Tie Dye both in Knitted Garments and Home Textiles.

EMBROIDERY PRINTING

We have automatic high - speed embroidery Machines, they are capable of rendering multi colors of embroidery and appliqué, an art which enhance the value of the garments. We also have the facility to provide hand embroideries for the complicated patterns .

Our versatile screen - printing ensures long lasting colorful prints using a variety of techniques such as Digital Prints, Chest Prints, Rotary Prints, Discharge / Reactive Prints, Spray Print, Glitter Print, Plastisol Prints, Foil Prints, High Density Prints, Gel Prints, Water Based Prints, Pigment prints, Non - PVC Prints etc.,.
